

**City of Savannah Park and Tree Department Planting Notes**

- All planting shall adhere to the following standards as specified in:
  - The Landscape and Tree Ordinance of the City of Savannah.
  - The Landscape and Tree Ordinance Compliance Manual of the City of Savannah.
- Plants shall be true to species and variety specified, and nursery-grown in accordance with good horticultural practices.
- Any deviation from these plans in either species or layout must be specifically approved by the Landscape Architect for the City of Savannah or designee.
- Plants shall conform to the measurements specified on the approved plan(s).
- Contractors are responsible for inspection of existing conditions and must promptly report any discrepancies.
- No large or medium tree species shall be planted within 10-feet of any underground utility line or underneath any overhead power lines, and small tree species must maintain a minimum 5-foot separation from underground utility lines.
- All trees shall be healthy, vigorous, with a normal habit of growth, even distribution of branches, a straight trunk which exhibits good trunk taper, with limbs not lower than four feet above the ground, dependent upon the species, and shall be free from disease, insect infestation, mechanical injury, girdling roots, or other objectionable features that would cause the tree to decline or become structurally unsound. Trees shall be well-branched and densely foliated when in leaf.
- Plants shall be subject to inspection for conformity to specifications requirements and approval by the City of Savannah Park and Tree Department. Such approval shall not impair the right of inspection and rejection during progress of the work. Acceptance at the nursery, in which the plant is growing, prior to transplanting, does not preclude rejection at the site for just cause.
- Tree shall be planted at proper depth or shall be rejected at time of inspection.
- Stake trees only when necessary. Staking and guying shall follow the City of Savannah's Park and Tree Department specifications when used.
- Landscape contractors are required to attend a pre-planting meeting with the City of Savannah's Park and Tree Department prior to the start of the project. Please contact the Park and Tree Department Site Inspector at (912) 651-6610 to set up the meeting.

**TREE QUALITY POINT CALCULATIONS**

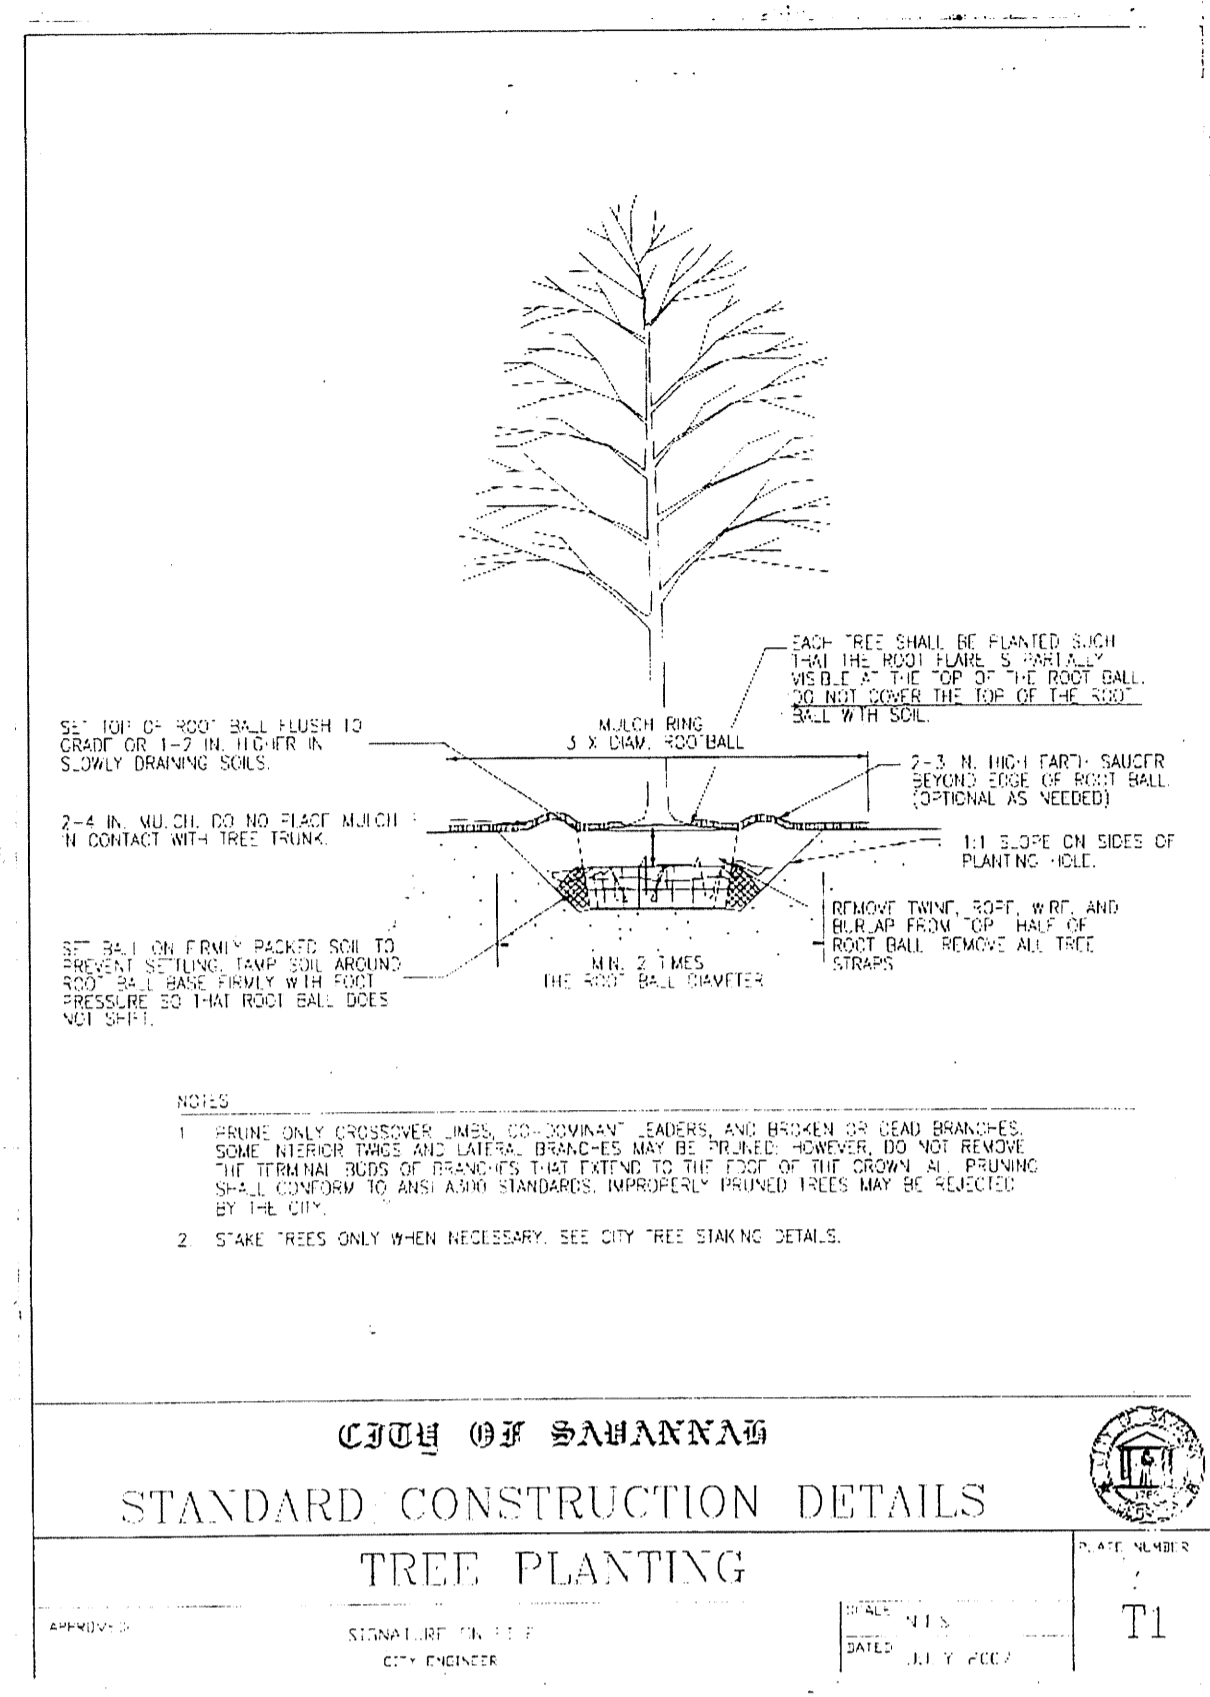

Total Site Area 1.14 acres  
 TQP's required: 1.14 ac x 1600 = 1,824  
 TQP's @ parking .27ac x 1200 = 324  
 LQP's required 1.14 ac x 400 = 456

Preserved Trees on Site: 0  
 Note: See Civil Drawings for Greenspace Calculations.

**Proposed Tree & Shrub Schedule - TQP & LQP Totals**

QTY	Description	Size	TQP	Parking TQP	LQP
4	Live oak	2" caliper	360	180	---
11	Red maple	2" caliper	990	360	---
2	Tulip poplar	2" caliper	180	---	---
5	Bald cypress	2" caliper	450	---	---
5	Crape myr. 'natchez'	1" cal. min. multi-trunk	---	---	50
16	Wax myrle	3 gallon	---	---	160
6	Ligustrum	7 gallon	---	---	30
9	Dwarf yaupon holly	3 gallon	---	---	27
92	Abelia	3 gallon	---	---	276
60	Muhly grass	3 gallon	---	---	---
25	Lantana	1 gallon	---	---	---
380	Liriope	1 gallon	---	---	---
<b>TOTALS</b>			<b>1,980</b>	<b>540</b>	<b>543</b>

Sod: Bermuda sod at all areas shown on plan.  
 Mulch: 3"-4" pine straw or pine bark at all open bed areas.
